

Overlook Bay BOD e-mail Meeting

April 11, 2012

Minutes submitted to and approved by Overlook Bay BOD

Pete sent out a proposal presented by our maintenance person, Bob Smith, that we have a Port-O-Let put in at the barn for the summer season so that the maintenance team would have a facility for their use as well as any of the board members when we meet at the barn at various times of the year. It would be placed behind the barn so that it would not be visible from the road.

The proposal was voted by e-mail by the BOD and approved.
